

HOTLINE FOR REPORTING CHILD SEXUAL ABUSE MATERIALS

Who are we?

The Hotline for reporting child sexual abuse material was launched by the International Center "La Strada" in April 2023, where any person can anonymously report child sexual abuse materials using the form available on the platform

Our mission

The Hotline's mission consists in combating sexual abuse of children in the online environment by removing materials with illegal content from the digital space.

The reporting service is managed by the Center "La Strada" in partnership with the General Police Inspectorate of the Republic of Moldova and private companies in the ICT sector in order to identify, refer, notify, remove and prevent the repeated distribution/sharing of child sexual abuse materials.

By joining the global network **INHOPE (International Association of Internet Hotlines)** in the fight against child sexual abuse in the digital space, we have joined the mission of hotlines around the world to strengthen joint efforts for a safer and cleaner Internet for children.

Our responsibilities

- ✓ Reception of reports of alleged sexual abuse of children using the reporting platform;
- ✓ Analysis and classification of reported materials;
- ✓ Notifying service providers and requesting the removal of child sexual abuse materials from the digital space;
- ✓ Cooperation with international partners in the field of combating online sexual abuse and exploitation of children and with national law enforcement bodies.

What can be reported?

Photo and video images of children partially undressed, in nude poses, or engaged in real or simulated sexual activities must be reported for removal from the online environment. These materials constitute child sexual abuse and the production, possession or distribution of such images is illegal.

Who can report ?

Anyone concerned about the well-being of a child can anonymously report suspected child sexual abuse material using the available form. The reporting procedure is confidential and free, and can be done in a few simple steps (see here how you can report:
